

HUR FREETRAINER

EXERCISE PANEL

For a holistic training experience
register and track equipment-free exercises in your training program

Make every exercise count.

Complete your HUR SmartTouch setup with the HUR FreeTrainer Exercise Panel

The perfect complement to your HUR SmartTouch setup, the [FreeTrainer brings equipment-free exercises into the same training plan and tracking system](#). Functional training, balance, flexibility, and other non-equipment exercises can all be included for more comprehensive, outcome-based training.

With its free-standing design, the HUR FreeTrainer can be conveniently positioned next to a free training area in the gym or clinic. Easy-to-follow exercise instructions and automatic synchronization with HUR SmartTouch create a smooth, connected, and paper-free training experience.

- One Profile. Every Exercise. All Your Data.**
- One customer profile brings together all exercises and training data, creating a more complete and personalized training experience for every user.
- With a simple swipe of the wristband, the user's complete training plan appears on the easy-to-read touch screen.
 - Clear written and visual instructions guide users through each exercise.
 - Users can mark exercises as completed and record their activity.
 - Seamless synchronization with HUR SmartTouch makes it easy to follow the training plan and track progress.
 - Trainers can easily add new activities to create and adapt individualized training programs.

One connected ecosystem

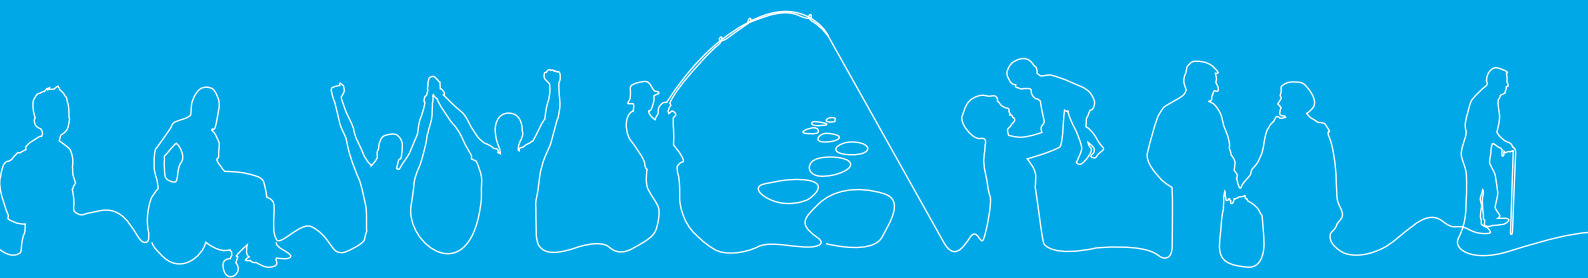

YOUR PARTNER FOR LIFELONG STRENGTH

Strength and balance are essential for a long, active, and independent life.

HUR's science-based solutions combine intelligent equipment and smart software to deliver an effective and enjoyable training and rehabilitation experience with measurable results. The benefits extend across the entire facility: better well-being for users, easier and more motivating workflows for professionals, and greater efficiency and value for facility owners.
